Profile

Over twenty years' experience managing, leading, and delivering business change projects internationally.

Designing and delivering strategy, working with external partners and managing outsourced relationships & delivery. Often picking up time critical, complex, or troubled initiatives to deliver strategically aligned results by effectively understanding the change needed while aligning to business objectives and strategic drivers. Pragmatic use of fit-for-purpose methods for enhanced outcomes while working closely with senior management teams and stakeholders to achieve key strategic goals. Coaching and mentoring individuals and teams for tangible performance improvements. Ensuring transition of people, roles, and activities are planned and executed for effective business as usual operations.

Core Competencies

Management:

- Budget and P&L experience. Budgets ranging from £250k GBP to \$30m NZD.
- Balance business and strategic drivers with financial targets
- Connect strategic governance and effective change with day-to-day operational reality
- Transition and Transformation
- Manage outcomes internally and externally
- Outsourced agreements, relationships and delivery
- HR processes, recruitment, and personnel development

Leadership:

- Multi-cultural, multi-national teams and clients
- Build relationships and trust, stakeholder management and C-level interaction
- Coach and mentor for real and measurable performance improvements
- Lead to shift behaviours and attitudes, and normalise change

PPM:

- Proven delivery track record
- Micro to macro Governance
- Connect projects to the enterprise wide value chain
- Commercial awareness, knowledge and experience
- Profit and loss accountability; average 37% margin.
- Utilise fit-for-purpose methods

Professional Experience

Jan 2005 – Present **Unlike Before, Operating Company of Deanne Earle**
Delivering international onsite & remote consulting and PPM services to global clients, often con-currently. Engaging with client organisations directly or via service partnerships with Consulting Services Companies, Systems Integrators, and Application Solution Providers to deliver effective change to organisations.

2016-2016 **Mighty River Power, Auckland, NZ** – Portfolio Management Consultant, Onsite

Mighty River Power is an electricity generation and electricity retailing company – help establish the fundamentals of a fully operational Portfolio Management Office and provide a baseline for maturity to an ePMO.

- Performing an assessment of current state including inventory of initiatives, governance and reporting. Reduced portfolio by an initial 56% within 6 weeks.
- Establishing a revised governance model, repurposing existing forums and attendance with well-defined terms of reference.
- Building relationships across the organisation to educate through interaction on the meaning, purpose and position of Portfolio Management.
- Quickly gaining trust, full support and involvement of the CEO and Executive Management Team.
- Creating a simple eye-catching view of the portfolio landscape for

everyone to understand the initial portfolio scope, delivery timescales, killer dependencies and key business outcomes / benefits.

- Designing the Change Management Strategy and Communications Plan.
- Proposing then ensuring successful transition to a Vendor to provide Portfolio Management as a Managed Service.

2013-2015 Services Partnership with Vendavo UK – Program Management (Pricing Solution), Remote & Onsite

- Vendavo products provide Organisations a complete set of data analytics and price optimisation solutions, driving millions of dollars directly to the bottom line.
- Reporting to the Vendavo VP Global Solution Delivery Europe. Connecting with senior management to manage the SOW, budget and profit margin, and fulfilment of the agreed deliverables and solution.
- Working with globally spread teams (UK, Czech Republic, Germany and India), developing plans, defining key messages and communications for executive and team level, transition to support and closedown.
- Ensuring successful delivery using a hybrid-agile approach: building relationships, aligning plans, managing scope and change requests, risk and issue mitigation, project and budget controls, requirements harmonisation, UAT, and performance testing and adjustments.
- Active involvement with the Program Management Group providing input on process improvement and program management maturity. Ensuring centralised project repositories are current.

April – Sept2015 Becton, Dickinson & Company, Grenoble, France. Medical Technology, global. €452k EUR Fixed Fee budget excl agreed change orders. New implementation transitioning thinking and processes from an older highly customised solution. Global project for six business units. Completed successfully with client signoff.

April2014 – April2015 Henkel, Dusseldorf, Germany. Worldwide operation with leading brands and adhesive technologies. €1.645mEUR Time & Materials budget excl agreed change orders. Building on a previous template implementation. High complexity involving 5 business units across North America, Western Europe, and APAC. Transitioned project lead role to another Vendavo colleague.

New implementation transitioning thinking and processes from an older highly customised solution. Enterprise wide impact using standard harmonized functionality for two business units.

2012-2013 NZ Post Ltd, Auckland, NZ – PMO Consultant, Onsite

NZ Post is a state-owned enterprise from the corporatisation of the New Zealand Post Office – brought in to assess the current project governance framework, support business and PMO improvements. Monitoring the innovation, strategy & technology group programme of work for future mode of operation (by 2015).

- Performing an assessment, recommendations and maturity roadmap for the proposed Project Governance Framework from Business Case to Investment Approval through Project Delivery and Benefits Realisation – identifying critical points of governance failure and options for remediation.
- Providing guidance and input to the RFP search and selection for an EPM Tool ensuring alignment with governance framework; subsequently involved with the deployment across the business.
- Administering Programme Management guidance, mentoring, and direct support of circa \$30m NZD Technology Change Program. Establishing a programme framework and mentoring Sponsors.

2010-2011 Services Partnership with Sterling Commerce UK (an IBM Company) – Project Management, Remote & Onsite

Italian operation (Origlass S.p.A) of Belron International Ltd, Milan, Italy. Global automotive glass replacement and repair business. €450kEUR Fixed Fee budget. Warehouse Management System (WMS) based on global template.

- Reporting to the Sterling Commerce UK Programme Manager and connecting with senior management (Belron, Origlass & Sterling) to gauge business requirements and overcome conflicting views.
- Working with globally based teams (UK, US and India) and other local software solution providers. Developing engagement and communication plans, defining key messages and communication channels through regular meetings and reporting.
- Ensuring successful delivery through the project lifecycle: requirements gathering, building teams, creating plans, risk and issue mitigation, reporting, stakeholder management, UAT, and project closedown.

2010-2010 Telecom New Zealand Ltd, Auckland, NZ – Project Management Lead Consultant, Onsite

TNZ is a communications service provider (CSP) across NZ. Contracted to manage the Transition & Continuity and Transformation & Innovation workstreams of a large sourcing project. Set up the programme framework jointly with the successful vendor for End User Computing enabling independent transition.

- Onsite in NZ during Phase 3, quickly understanding requirements and determining workstream status, engaging with the shortlisted vendors, and participating in Joint Task Force exercises.
- Collaborating with tower leads, finance and commercial teams to understand constraints.
- Accomplishing delivery of an effective End User Desktop programme framework in conjunction with the vendor providing confidence to the board regarding governance, delivery, benefits realisation, and handover to BAU.

2010-2010 Sinergie s.r.l, Alba, Italy – Project Management Consultant, Onsite

Sinergie provides products, technology, service and solutions for central heating and air conditioning systems. Appointed to a consulting exercise involving website analysis and review.

- Analysing current website and gathering information; producing recommendations for the future strategy solution and documenting resulting programme of work for future development and expansion.

2008-2009 Services Partnership with Sterling Commerce UK (an IBM Company) – Project & Service Delivery Manager, Remote

DHL Service Parts Logistics for HP. Global logistics organisation. Managed a risk mitigation pilot (RMP) for order management and processing, across three countries, subsequent post pilot deployments and to assist with service delivery management. Part of a £22m investment programme.

- Delivering the RMP with roll out to 3 countries in Asia Pacific, and later post-pilot deployments to Singapore, Australia, NZ, South Africa, Hungary, and Hong Kong.
- Leading teams located in the UK, US and India with client resources in Europe, US, and Asia.
- Managing the planning, risk & issues, gate keeping, developing and engaging communications plans – centralising communication channels to ensure delivery against requirements and timeframe.
- Introducing & encouraging ongoing internal and client process improvement as part of the service delivery.
